

O&M Manager

Washington, DC - Part-time with the potential of Full-time employment

New Columbia Solar (NCS) is innovating the way the District of Columbia is powered. We provide and manage high quality, district based solar energy systems and are looking for exceptional employees to join our growing team!

Description

NCS is looking for an experienced solar professional to service our fleet of commercial solar energy assets across the District of Columbia. The manager will be responsible for the operation, maintenance and servicing of a portfolio of commercial solar photovoltaic systems. The O&M Manager will report to the Chief Operating Officer.

Duties include:

- Commissioning and creation of punchlists needed for accepting projects into the Asset Management team from Construction.
- DAS commissioning where needed
- Monitoring and optimizing system performance
- Troubleshooting and providing higher-level technical problem solving
- Maintenance planning and scheduling as well as deployment of resources for corrective maintenance.
- Warranty management
- SREC Registration

Minimum Qualifications

The ideal candidate would have a minimum of 3 years experience managing the servicing and operation of commercial solar photovoltaic assets, managing and

scheduling field personnel as well as the administration of O&M contracts. An engineering degree and NABCEP certification is a plus.

Application Deadline

We are looking to hire immediately – position open until filled.

To Apply

Email your resume and cover letter to info@newcolumbiasolar.com
