

Construction Manager

Washington, DC - Full time

New Columbia Solar (NCS) is innovating the way the District of Columbia is powered. We provide and manage high quality, district-based solar energy systems and are looking for exceptional employees to join our growing team!

Description

The Construction Manager will manage solar projects through various stages of deployment, from project handoff to system operation and closeout. A Construction Manager must be well-versed in solar construction methodologies, procedures and able to coordinate a team of professionals of different disciplines to achieve the best results. It is the Construction Manager's responsibility to work with our Director of Operations to ensure all projects are delivered on time according to the requirements, within budget and with outstanding customer satisfaction.

Job Duties

- Oversee multiple construction projects from start to finish
- Maintain strict adherence to the quality and safety standards
- Work directly with Director of Operations in project planning and identification of resources needed to successfully complete installation
- Responsible for cost and project schedule including: development, metrics, maintaining the schedule
- Create bill of materials for balance of systems and work closely with procurement manager to ensure material readiness
- Manage performance, productivity and work quality of all crews to ensure that the project is completed on time and under budget
- Physically support onsite staff and provide supervision when needed

- Manage the punch list, demobilization, and financial closeout of projects
- Maintain a daily log of construction conditions, events and progress including pictures and complete project documents
- Provide evaluations of performance on subcontractors

Minimum Qualifications

- High School Diploma, GED or equivalent
- State Driver's License
- 3+ years of experience in solar construction with proven supervisory experience
- Proficiency with reading blueprints, plans and specs
- High degree of professionalism and strong work ethic
- Ability to positively and effectively interact with internal and external customers
- Proficiency in planning and production
- Team leader with proven delegation and motivational skills
- Must be able to legally work in the U.S. and pass a background check
- Available to work long days and ability to lift at least 50 lbs
- Valid driver's license and clean driving record
- Experience and comfort with working on roofs
- Self-starter and ability to work independently as well as in a team

Preferred Experience

- Proficiency with Microsoft Excel and Sketchup or AutoCAD
- NABCEP certified
- OSHA 30 training preferred
- Strong computer skills and detailed knowledge of Microsoft Office (Word and Excel)
- Experience working with a CRM database
